Police Remind Citizens to be Wise During Holiday Season

With the holidays quickly approaching, Sandy Police Department would like to offer the following safety tips to shoppers. Even though you may be too busy during the hectic holiday schedule to notice your habits at home or during shopping, thieves may be watching as you leave your home or your car. Crimes of opportunity often take only seconds to complete.

• **Lock all doors at your home and garage** – Criminals will use the quickest access to enter your home while you are away to remove items that can be taken in a hurry.

• **Lock valuables in your trunk before leaving your home** – If you prefer to leave your purse in the trunk of your car while you shop, please place it in the truck before you leave your home. Police report they have had several items recently stolen from the trunk of vehicles after victims open their trunks and attempt to hide their valuables after arriving at their destination unaware they were being watched.

• **Remove valuables in your car that can easily be seen** – Again, try to place them in the trunk before leaving your home. If you are placing recent purchases in the trunk during a shopping trip, the police strongly suggest moving your vehicle to another parking location before returning inside the store.

• **Check your bank accounts often** – The holiday season is a time when a lot of people are using credit and debit cards which can increase the chance of becoming a victim of identity theft.

• **Pay attention and slow down** – Plan ahead as you travel to your various destinations and make allowances for bad weather and heavy shopping times so you arrive safe and on time.

• **Watch closely and be aware of your surroundings** – Don't leave your purse and other valuables unattended in shopping carts. Try not to have your hands so full of packages when leaving stores that you become an easy victim.

Taking extra precautions this holiday season can help ensure safety to those shopping and traveling. If you do encounter suspicious activity, please call police dispatch at 801-840-4000 or in the event of an immediate emergency, call 9-1-1.

Carbon Monoxide; An Invisible Killer

With the cold weather returning and people turning home furnaces back on, the Sandy City Fire Department would like you to please take a moment and review this important information on carbon monoxide poisoning.

What is Carbon Monoxide?

Carbon monoxide (CO) is a colorless, odorless and tasteless poisonous gas.

What should you do to prevent CO poisoning?

• Make sure appliances are installed properly and maintained annually.
• Install a CO detector in the hallway near every separate sleeping area of the home and on every floor.
• Never heat or cook with a device inside your home that uses fuel such as propane, gas or charcoal.
• Never leave a car running in a garage, even with the garage door open.

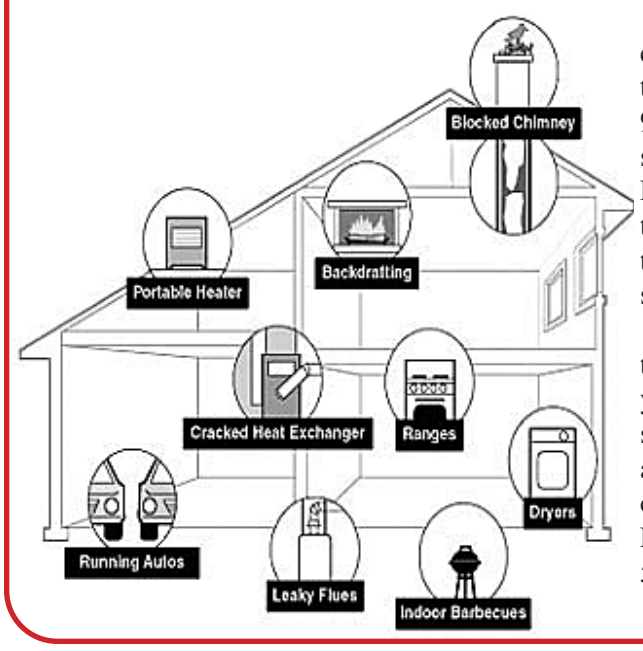
Know the Symptoms of CO Poisoning…

Physical symptoms of CO poisoning can vary, depending on the amount of CO in the bloodstream. The higher the concentration, the greater the danger.

Mild:	**Medium:**	**Severe:**
Slight headache	Severe headache	Unconsciousness
Nausea	Drowsiness	Convulsions
Vomiting	Confusion	Cardiac/respiratory failure
Fatigue	Rapid heart rate	Death
Flu-like symptoms		

What should you do if your CO detector/alarm is sounding or you experience any of these symptoms?

Never ignore an alarming CO detector. If the alarm sounds, operate the reset button, call 911, and immediately move to fresh air.



If you are experiencing any of the symptoms listed, please call 9-1-1 once you are in a safe location. The Sandy Fire Department can test the levels in your home to determine if there is a serious risk.

If you need assistance with any aspect of your CO detector or to see if you qualify for a free device, please contact the Sandy City Fire Department at 801-568-2930.
