Water Wisely

Many yards throughout Sandy City have a high amount of sand in the soil that requires a unique water schedule. In the past, the Governor's Slow the Flow plan has published some great guidelines that may not apply to the soil conditions in Sandy. As watering season approaches, Sandy City Public Utilities Dept. suggests the following schedule:

- **Startup to April 30**
  Once every six days
- **May**
  Once every four days
- **June**
  Once every three days
- **July**
  Once every two days
- **August**
  Once every two days
- **September**
  Once every four days

For more information or questions on how to conserve water, please contact the Public Utilities Department at 568-7280.

Water Education Classes at Sego Lily Education Gardens

Need ideas on what to plant in your yard this summer or just need some good advice on how to take care of your existing yard? Come visit the Sego Lily Gardens located at 1472 East Sego Lily Drive (10000 South) to see examples of plants, trees, flowers, and irrigation methods to help you be more water efficient. Please call 568-6087 for additional information or look online at www.sandy.utah.gov for a list of our free classes.
